Tianjin Freya Automation Technology Co., Ltd.

APPLICATIONS

COMPANY PROFILE

Founded in 2014, Freya mainly deals in electric actuators, electric valve actuators, electric valves and other products and services. It focuses on the process industry field and has long been committed to providing professional fluid control solutions for industries such as electricity, steel, building materials, and water treatment. According to actual working conditions, through necessary on-site surveying and technical briefing, our xompany provides customers with safe, economical and environmentally friendly selection and design, strictly supplies and guides installation and commissioning in accordance with contract requirements, and hands over for use after meeting the standards.

Our company integrates domestic and foreign trade, and our domestic products are mainly sold to 20 provinces, cities and regions. At the same time, our company sells to more than a dozen countries and regions. In the process, we constantly digest and absorb new technologies and experiences of domestic and foreign products to form our own distinctive products.

Over the years, our company has won the trust and favor of customers with high-quality products and first-class services. Thanks to the support of new and old customers, we will work harder and give back to our customers with better quality and more efficient services.

COMPANY HONORS

2014

So far

10 years

Electric Actuator & Electric Valve Actuator & Electric Valve

250NM quarter-turn electric actuator

6000NM quarter-turn electric actuator

250NM direct mounted electric actuator

Linear-turn intelligent electric actuator

Multi-turn small torque intelligent type

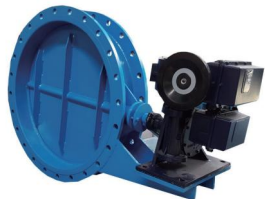

Multi-turn large torque intelligent type

Multi-turn small torque on-off type

Multi-turn large torque on-off type

Electric damper butterfly valve

Middleline electric flange butterfly valve

Electric stainless steel ball valve

Electric sleeve control valve

Electric metal seal gate valve

Electric cast steel globe valve

Electric soft seal gate valve

Electric cast steel control valve

ST multi-turn electric actuator

ST+VE linear-turn electric actuator

Quarter-turn small torque on-off type

Quarter-turn small torque modulating type

DZW+RS quarter turn intelligent type

DZW+RS quarter turn on-off type

Heavy multi-turn intelligent type

Explosion-proof intelligent type

Direct mounted large torque modulating type

Foot-plate mounted large torque modulating type

Electric stainless steel gate valve

Soft seal wafer butterfly valve

Electric damper butterfly valve

Soft seal flange butterfly valve

Electric soft seal ball valve

Electric metal seal butterfly valve

Electric Actuator & Electric Valve Actuator & Electric Valve

Quarter-turn small torque on-off type

Quarter-turn small torque modulating type

Quarter-turn large torque on-off type

Quarter-turn small torque modulating type

Electric PTFE butterfly valve

Electric wafer butterfly valve

Electric flange ball valve

Electric three way ball valve

Quarter-turn small torque on-off type

Quarter-turn small torque modulating type

Quarter-turn large torque on-off type

Quarter-turn large torque modulating type

Electric wafer butterfly valve

Electric metal seal butterfly valve

Electric V port ball valve

Electric cast steel butterfly valve

DKJ foot-plate mounted electric actuator

DKJ direct mounted electric actuator

DKJ explosion-proof electric actuator

DKZ linear-turn electric actuator

Electric damper butterfly valve

Electric plug valve

Electric double seat control valve

Electric single seat control valve

381 linear-turn on-off type

381 linear-turn intelligent type

361 linear-turn on-off type

361 linear-turn explosion-proof type

361 quarter-turn direct mounted

361 quarter-turn foot-plate mounted

381 quarter-turn explosion-proof type

Heavy duty linear-turn electric actuator

Electric Actuator & Electric Valve Actuator & Electric Valve

Electric stainless steel control valve

Electric cast steel control valve

Electric single seat control valve

Electric integrated control valve

Electric welding control valve

Electric sleeve control valve

Electric sleeve control valve

Electric single seat control valve

FRYT quarter-turn direct mounted

FRYT quarter-turn foot-plate mounted

FRYT quarter-turn explosion-proof type

FRYQ+VE linear-turn electric actuator

Electric stainless steel gate valve

Electric stainless steel ball valve

Electric sleeve control valve

Electric high performance butterfly valve

FRYA multi-turn electric actuator

FRYA multi-turn electric actuator

Electric globe valve

Electric gate valve

Direct mounted on-off type

Foot-plate mounted on-off type

Direct mounted intelligent type

Photovoltaic solar Electric butterfly valve

FRYQ multi-turn+ bevel gear

FRYQ multi-turn electric actuator

FRYQ+BW quarter-turn foot-plate mounted

FRYQ+BW quarter-turn direct mounted

Electric UPVC butterfly valve

Electric wafer soft seal butterfly valve

Electric soft seal ball valve

Electric female thread ball valve
